[REDACTED] Comment. [REDACTED] covering 25X1 various military posts, the KVP received new Soviet motor vehicles after late December 1953. As these shipments were not listed previously in reports on military supply traffic they probably were labeled as commercial shipments. The three receiving stations mentioned are known as KVP posts. According to previous information, distribution points for weapons and equipment, mainly motor vehicles, are located at Oranienburg and Berlin-Magerviehhof. Possibly a distribution point for the Armeegruppe Sued has been established at Leipzig-Stoetteritz. The 56 trucks dispatched there will probably be fitted with superstructures for use as radio trucks, repair shop trucks, tank trucks, etc. The 54th Central Repair Shop of the GDR in Leipzig is known to manufacture such superstructures.
